### **Hardis Group listed as a Notable Vendor in Gartner's Europe Context: 'Magic Quadrant for Warehouse Management Systems'**

**The report lists Hardis Group among the 11 notable warehouse management software vendors in Europe.**

Grenoble, September 20, 2018 – Hardis Group, a consulting firm, digital services company and independent software vendor, announces that for the first time, it has been listed as a Notable Vendor, in research and advisory firm Gartner's 2018 Europe Context: 'Magic Quadrant Warehouse Management Systems', published on August 23, 2018 for its Reflex WMS warehouse management software. The report lists Hardis Group among the 11 notable warehouse management software vendors in Europe.

The report underlines that Reflex WMS is deployed in around 1,000 warehouses across 20 countries. Because the solution has undergone constant expansion since its launch in 1994, it offers extensive functional coverage and addresses the logistics needs of companies and organizations of all sizes across 18 sectors. The majority of Hardis Group clients using the solution are logistics service providers, retailers (physical store, e-commerce, and omnichannel), FMCG manufacturers, and agri-food companies. In addition to warehouse management, Reflex also covers retail outlet inventory and logistics management, making it the ideal solution to the challenges of omnichannel logistics. Hardis Group has a dedicated Cloud hosting business unit and offers Reflex WMS as a SaaS solution.

*"We're delighted that Gartner has listed Reflex among the 11 notable solutions in its Europe Context: 'Magic Quadrant for Warehouse Management Systems'. In our view, this is just reward for our rapid growth in France and abroad, with 30% of our license sales now coming outside France. We believe appearing in the report also underscores our ability to help businesses and organizations across Europe streamline their logistics operations, achieve productivity and performance gains, and cope with the challenges of globalization and omnichannel,"* said Cécile Arnaud, Head of International Development at Reflex.

#### **About Hardis Group**

---

Hardis Group, a consulting firm, digital services company and independent software vendor, is committed to accelerating the transformation of its clients' value chains, information systems and supply chain.

Its teams support the strategic, organizational and technological transformations of companies in order to increase their competitive edge. They design, develop and integrate differentiating solutions, capitalizing on the most innovative technologies (cloud, platforming, artificial intelligence, IoT, robotics, etc.). Hardis Group's Reflex software suite and Eyesee inventory drone enable international companies to meet the challenges of efficient logistics operations in warehouses, factories and stores all over the world.

Remaining independent since its creation in 1984, Hardis Group cultivates the spirit of initiative, the creativity and talent development of its 1,000 employees to sustain its growth, and the long-term trust of its 2,500 clients. Hardis Group achieved revenue of €99.1 million in 2017. It has offices in Grenoble (head office), Paris, Lyon, Lille, Nantes, Bordeaux, Geneva, Madrid and Utrecht.
